

Training report
“Basic techniques of Agri-digital application”
12-18 March, 2019

One seven days training programme on “Basic techniques of Agri-digital application” which was organized by the department of Extension and Social sciences, College of Fisheries during 12-18 March, 2019. The seventeen numbers of rural farmers from the different cluster villages of Tripura selected under ‘Mera Gaon Mera Gaurav’ scheme were participated in the training. As per the course design, the participants were being taught to different digital applications in farming like the mobile apps, KVK portal, ICT tools, role of social media and other related issues scheduled for the training programme. Dr. R. K. Majumder, Head, FPT&E, COF graced the inaugural programme as the Chief Guest and emphasized the need for such programme, which will help the rural farmers to enhance their competencies and efficiency using the technological aids in a much better way. Dr. Atanu Sarkar, Dean (i/c), College of Fisheries, CAU (I) briefed the significance of interpersonal communication apart from the digital applications of the rural farmers. He expressed happiness over the enthusiastic participation from various parts of Tripura and urged the participants to take full benefit from the sessions. Mr. Y Jackie Singh highlighted the key events scheduled for the training programme and Dr. Prasenjit Pal, proposed the vote of thanks as Course Coordinators of the training programme.
